Subject: Additional Posters for San Jacinto 5/25/16 Open House
Date: Thursday, May 05, 2016 2:35:00 PM
Attachments: [Map of 2016 Porewater Plan - from SJRWP Porewater SAP Addendum 1 12Feb2016.pdf](#)
[Map of Fish Sample Locations - from SJRWP Tissue SAP Addendum 2 23Mar2016.pdf](#)
[Surface Water Sample Locations - from SJRWP Surface Water SAP 17Mar2016.pdf](#)
[Map of Sediment Sampling Plan - from SJRWP Sediment SAP Addendum 3 2-29-16.pdf](#)
[South GW Well Locations - from Final Addendum 3 Groundwater Study SAP 03222016 \(00000002\).pdf](#)
[North GW Well Locations - from Final Addendum 3 Groundwater Study SAP 03222016 \(00000002\).pdf](#)

Melody,

Please make a poster & slide for each of the attached sampling plans. For only the sediment plan map, some of the locations are going to be repeat samples (the yellow & green dots). Can you get the previous results & add them to the poster? The sample IDs are on the attached map. For the sediment plan slide, put the old samples & their results (TEQ dioxin) on the base slide, then have a second layer that includes the new locations as well. For the last one, the groundwater sampling plan, make two posters & slides – one for north & one for south. For the south, the blue wells are existing wells – so add the old sample results for the blue wells (TEQ dioxin) & put the new well locations as a second layer on the slide.

Thanks,

Gary Miller
